Before Use

When using this DVD player, basic precautions should always be followed, including the following:

- 1) Read these instructions
- 2) Keep these instructions
- 3) Heed all warnings
- 4) Follow all instructions
- 5) Do not use this apparatus near water
- 6) Clean only with dry cloth
- 7) Do not block any ventilation opening
- 8) Do not install near any heat sources such as radiators , hear ,registers ,stoves, or other apparatus (including amplifiers)that produce heat.
- 9) Do not defect the safety purpose of the polarized plug. A polarized plug has two blades with one wider than the other .The wide blade is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10) Protect the power cord from being walked on or pinched particularly at plugs, and the point where they exit from the apparatus.
- 11) Only use attachments/accessories specified by the manufacturer.
- 12) Use only with the cart ,stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

- 13) Unplug this apparatus during lightning storms or when unused for long periods of time.
- 14) Warning: To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
- 15) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged liquid has been spilled or objects have fallen into apparatus, the apparatus has been exposed to rain or moisture, dose not operate normally, or has been dropped.
- 16) Power does not completely shut-off when the power switch is on off position. to completely shut-off power from the unit. pull the plug from the AC outlet. Pull plug from AC outlet when leaving the unit unused over a long period of time(a day or more). keeping the power on with the unit unattended over long periods makes it a potential fire hazard.
